12. ORDERING PROCEEDURES FOR FEDERAL SUPPLY SCHEDULE CONTRACTS

Ordering activities shall use the ordering procedures of Federal Acquisition Regulation (FAR) 8.405 when placing an order or establishing a BPA for supplies or services. These procedures apply to all schedules.

- a. FAR 8.405-1 Ordering procedures for supplies, and services not requiring a statement of work.

(a) Ordering activities shall use the procedures of this subsection when ordering supplies and services that are listed in the schedules contracts at a fixed price for the performance of a specific task, where a statement of work is not required (*e.g.*, installation, maintenance, and repair).

(b) *Orders at or below the micro-purchase threshold.* Ordering activities may place orders at, or below, the micro-purchase threshold with any Federal Supply Schedule contractor that can meet the agency's needs. Although not required to solicit from a specific number of schedule contractors, ordering activities should attempt to distribute orders among contractors.

(c) *Orders exceeding the micro-purchase threshold but not exceeding the maximum order threshold.*

(1) Ordering activities shall place orders with the schedule contractor that can provide the supply or service that represents the best value. Before placing an order, an ordering activity shall consider reasonably available information about the supply or service offered under MAS contracts by surveying at least three schedule contractors through the GSA Advantage! on-line shopping service, or by reviewing the catalogs or pricelists of at least three schedule contractors (see 8.405-5).

(2) When an order contains brand name specifications, the contracting officer shall post the Request for Quote (RFQ) along with the justification or documentation as required by 8.405-6.

(3) In addition to price, when determining best value, the ordering activity may consider, among other factors, the following:

(i) Past performance.

(ii) Special features of the supply or service required for effective program performance.

(iii) Trade-in considerations.

(iv) Probable life of the item selected as compared with that of a comparable item.

(v) Warranty considerations.

(vi) Maintenance availability.

(vii) Environmental and energy efficiency considerations.

(viii) Delivery terms.

(d) *Orders exceeding the maximum order threshold.* Each schedule contract has a maximum order threshold established on a SIN-by-SIN basis. Although a price reduction may be sought at any time, this threshold represents the point where, given the dollar value of the potential order, the ordering activity shall seek a price reduction. In addition to following the procedures in paragraph (c) of this section and before placing an order that exceeds the maximum order threshold or establishing a BPA (see 8.405-3), ordering activities shall—

(1) Review (except see (c)(2) of this subsection) the pricelists of additional schedule contractors (the GSA Advantage! on-line shopping service can be used to facilitate this review);

(2) Based upon the initial evaluation, seek price reductions from the schedule contractor(s) considered to offer the best value (see 8.404 (d)); and

(3) After seeking price reductions (see 8.405-4), place the order with the schedule contractor that provides the best value. If further price reductions are not offered, an order may still be placed.

(e) *Minimum documentation.* The ordering activity shall document—

(1) The schedule contracts considered, noting the contractor from which the supply or service was purchased;

(2) A description of the supply or service purchased; and

(3) The amount paid.

b. FAR 8.405-2 Ordering procedures for services requiring a statement of work.

(a) *General.* Ordering activities shall use the procedures in this subsection when ordering services priced at hourly rates as established by the schedule contracts. The applicable services will be identified in the Federal Supply Schedule publications and the contractor's pricelists.

(b) *Statements of Work (SOWs)*. All Statements of Work shall include the work to be performed; location of work; period of performance; deliverable schedule; applicable performance standards; and any special requirements (e.g., security clearances, travel, special knowledge). To the maximum extent practicable, agency requirements shall be performance-based statements (see Subpart 37.6).

(c) *Request for Quotation procedures*. The ordering activity must provide the Request for Quotation (RFQ), which includes the statement of work and evaluation criteria (e.g., experience and past performance), to schedule contractors that offer services that will meet the agency's needs. The RFQ may be posted to GSA's electronic RFQ system, e-Buy (see 8.402 (d)).

(1) *Orders at, or below, the micro-purchase threshold*. Ordering activities may place orders at, or below, the micro-purchase threshold with any Federal Supply Schedule contractor that can meet the agency's needs. The ordering activity should attempt to distribute orders among contractors.

(2) *For orders exceeding the micro-purchase threshold, but not exceeding the maximum order threshold*.

(i) The ordering activity shall develop a statement of work, in accordance with 8.405-2 (b).

(ii) The ordering activity shall provide the RFQ (including the statement of work and evaluation criteria) to at least three schedule contractors that offer services that will meet the agency's needs.

(iii) The ordering activity should request that contractors submit firm-fixed prices to perform the services identified in the statement of work.

(3) *For proposed orders exceeding the maximum order threshold or when establishing a BPA*. In addition to meeting the requirements of 8.405-2 (c)(2), the ordering activity shall —

(i) Provide the RFQ (including the statement of work and evaluation criteria) to additional schedule contractors that offer services that will meet the needs of the ordering activity. When determining the appropriate number of additional schedule contractors, the ordering activity may consider, among other factors, the following:

(A) The complexity, scope and estimated value of the requirement.

(B) The market search results.

(ii) Seek price reductions.

(4) The ordering activity shall provide the RFQ (including the statement of work and the evaluation criteria) to any schedule contractor who requests a copy of it.

(d) *Evaluation*. The ordering activity shall evaluate all responses received using the evaluation criteria provided to the schedule contractors. The ordering activity is responsible for considering the level of effort and the mix of labor proposed to perform a specific task being ordered, and for determining that the total price is reasonable. Place

the order, or establish the BPA, with the schedule contractor that represents the best value (see 8.404 (d)). After award, ordering activities should provide timely notification to unsuccessful offerors. If an unsuccessful offeror requests information on an award that was based on factors other than price alone, a brief explanation of the basis for the award decision shall be provided.

(e) *Minimum documentation.* The ordering activity shall document—

- (1) The schedule contracts considered, noting the contractor from which the service was purchased;
- (2) A description of the service purchased;
- (3) The amount paid;
- (4) The evaluation methodology used in selecting the contractor to receive the order;
- (5) The rationale for any tradeoffs in making the selection;
- (6) The price reasonableness determination required by paragraph (d) of this subsection; and
- (7) The rationale for using other than—
 - (i) A firm-fixed price order; or
 - (ii) A performance-based order.

b. MULTIPLE MACHINES. When repairs are ordered by a Government agency on two or more machines located in one or more buildings within walking distance of each other, the charges will be computed from the time the repairman commences work on the first machine, until the work is completed on the last machine. The time required to go from one machine to another, or from one building to another, will be considered actual work performance, and chargeable to the Government, provided the time consumed in going between machines (or buildings) is reasonable.

c. TRAVEL OR TRANSPORTATION

(1) AT THE CONTRACTOR'S SHOP

(a) When equipment is returned to the Contractor's shop for adjustments or repairs which are not covered by the guarantee/warranty provision, the cost of transportation, packing, etc., from the Government location to the Contractor's plant, and return to the Government location, shall be borne by the Government.

(b) The Government should not return defective equipment to the Contractor for adjustments and repairs or replacement without his prior consultation and instruction.

(2) AT THE GOVERNMENT LOCATION (Within Established Service Areas)

When equipment is repaired at the Government location, and repair service rates are established for service areas or zones, the listed rates are applicable to any

Government location within such service areas or zones. No extra charge, time, or expense will be allowed for travel or transportation of repairmen or machines to or from the Government office; such overhead is included in the repair service rates listed.

(3) AT THE GOVERNMENT LOCATION (Outside Established Service Areas)

(a) The repair service rates listed for subparagraph (2) above apply, except that a travel charge of 48.5 cents per mile for repairmen will apply to the round-trip distance between the geographic limits of the applicable service area and the Government location. Such charge will apply as an additional charge, but it will be limited to one round trip for each request that is made by the ordering activity for repair service, regardless of whether repairs are performed at the Government location or at the Contractor's shop.

(b) When the overall travel charge computed at the above mileage rate is unreasonable (considering the time required for travel, actual and necessary transportation costs, and the allowable Government per diem rate for each night the repairman is required to remain overnight at the Government location), the Government shall have the option of reimbursing the Contractor for actual costs, provided that the actual costs are reasonable and allowable. The Contractor shall furnish the Government with a report of travel performed and related expenses incurred. The report shall include departure and arrival dates, times, and the applicable mode of travel.

(2) AFTER HOURS

When the Government requires that repair service be performed outside the Regular Hours defined above, except Sundays and Holidays observed at the Government location, the After Hours repair service rates listed herein shall apply. The Regular Hours rates defined above shall apply when repair service is requested during Regular Hours, but performed After Hours at the convenience of the Contractor.

(3) SUNDAYS AND HOLIDAYS

When the Government requires that repair service be performed on Sundays and Holidays observed at the Government location, the Sundays and Holidays repair service rates listed herein shall apply.
